Calibration

CUSTOMERS

Have you spoken to any potential customers? What did you learn?

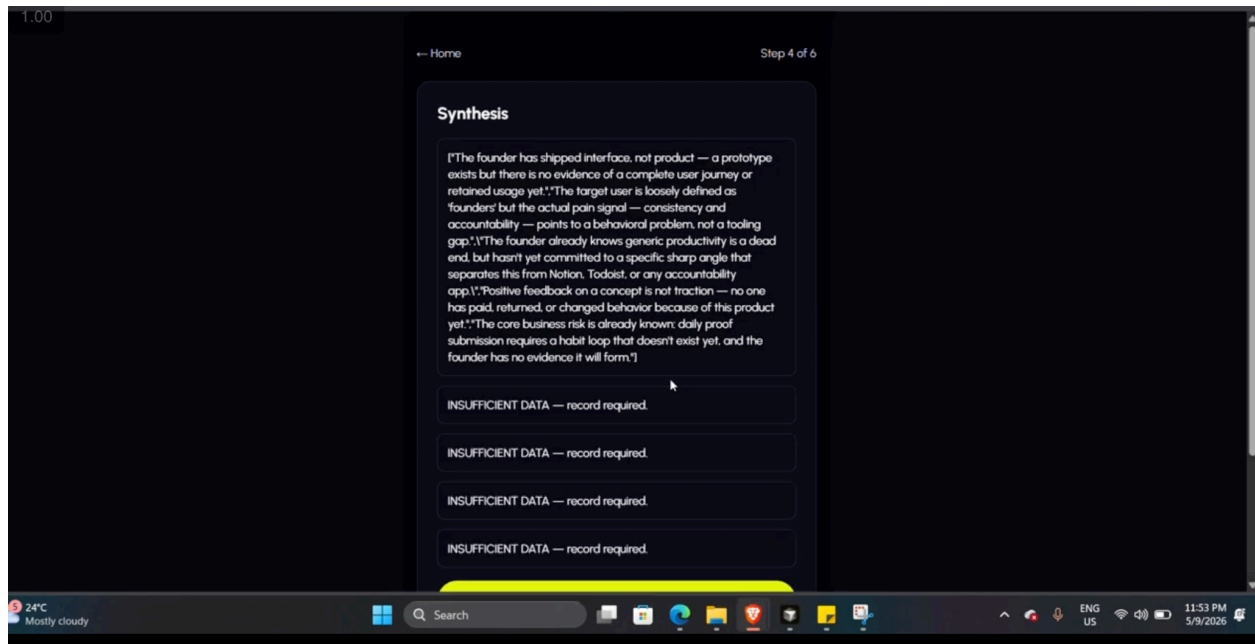

How many conversations, what they said, what surprised you, what they are actually paying for today.

0/100. Or none is fine if that's accurate

Replace “Calibration” with “CoNexa Calibration”

Remove all the Long dashes from everywhere in the beta product. (Reason: It is considered unclean AI)

Why does it say unfinished data here?

Can we make the output within 4 to at the max 5 line limit?
